

# Participation Report

This project was completed collaboratively by **Group Members:**  
**Kirandeep Kaur, Ibrahim Balogun, Elijah Ojelabi, and Maxwell Owusu-Edusei.**

## Roles and Contributions

### Maxwell Owusu-Edusei

- Led model development and implementation.
- Wrote and debugged core training code, data pipeline, evaluation scripts, and tuning procedures.
- Conducted experiment runs and generated final performance metrics.

### Ibrahim Balogun

- Co-developed all coding components with Maxwell.
- Assisted with preprocessing, model configuration, fine-tuning, and troubleshooting.
- Contributed to verification of results and testing of the final notebook.

### Kirandeep Kaur

- Created and delivered the group presentation.
- Summarized the workflow, explained the methodology, and presented key findings.
- Managed slide formatting and visual communication of the results.

### Elijah Ojelabi

- Wrote the project report draft.
- Organized written sections including introduction, dataset overview, and original report structure.
- Supported documentation and repository formatting.
